

HomeGrown Greenhouse

Enjoy fresh, healthy vegetables all year round harvested from your own 14' x 24' greenhouse. Perfect for a family of 4, this backyard greenhouse is designed to grow two 3'w x 24'l raised beds, and has space for hanging baskets overflowing with flowers and vine crops grown in containers.

The Home Gardener can personalize the space to best suit the needs of their family. Added products like roll-up side vents, benches instead of raised beds, personalized gable ends all add to the usefulness of this perfectly sized greenhouse.

HomeGrown Greenhouse

Kit includes all structural material, including extra purlins to easily add on 2 roll-up side vents (as an option) along with a commercial 4 year, UV coated greenhouse poly covering for roof and gable ends and flat bottom brackets for an easy install on a wooden base.

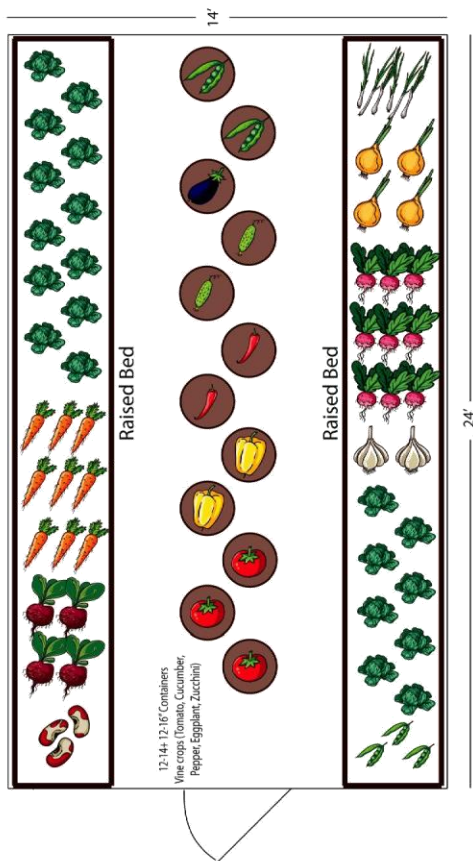

HomeGrown Greenhouse Kit Includes:

- 7 Arches
- 5 runs of Purlins
- 5 Crossties crop/structure support
 - Flat bottoms brackets
 - Wind Braces
 - Misc Hardware
 - Poly covering

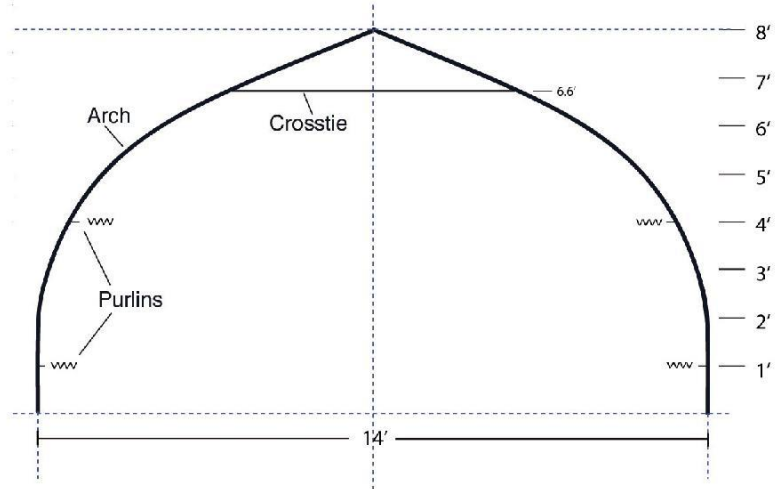

*Gable end framing and lug bolts to secure structure to base are not included.

\$2499

The HomeGrown Greenhouse has been designed to accommodate two raised beds or garden benches down each side, with vine crops in containers down the middle and ample walking space. The arches have been custom designed for ergonomic movement and head space.
